| **Tube end(s)** | diameter 35 mm, integrated threaded bush M10 for crossbars |
| **Type** | black |

Attractive stand for lights and smaller speaker cabinets. Thanks to the heavy, flat steel plate, the stand is suitable for use where space is at a premium. Depending on requirements, there are three ways to position the distance rod. In addition to the centered and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management and four sturdy feet are further useful features. The height is fixed with a safety hook and secured with a low-noise, backlash-free clamping screw. The slim design of the clamp enables space-saving transportation and ensures a stylish appearance. The usable height is between 1,420 and 2,420 mm and can be reached in 5 steps of 200 mm. The integrated M10 threaded bush enables the attachment of a crossbar or the direct attachment of lights. The maximum load capacity with centric loading in the middle position is 20 kg.
